## THE COLLECTIVE

"Do not be afraid ..."

**For IFE members the time has come to vote anonymously!**

**For others to whom the opportunity to vote was not given the time to decide will come soon!**

In all cases, we maintain that we must reject the settlement agreement and thereby an alternative form of fair negotiation can be achieved.

We want something **fair, transparent and sustainable** (not just for 10 years!)

**Say no** to the proposals of IFE-AID officials, otherwise they will continue to operate as they see fit and not necessarily in the best interest of their members.

**Saying no** to the proposals may also allow the President of IFE not having to sign and thereby lose face ...

**Say no** to the proposals – not to accept a unilateral modification of the contract that binds us to Euronat.

**Say no** to the proposals that we want to be compared with other centres, because we are not Le Jenny (different structure without camping: SCI, consisting of owners who have supreme rule) nor CHM with its turbulent history!

**Say no** to the proposals, because the increase is significant – almost double with the redevance and ‘works redevance’ – clawing back more than 20% of the redevance deficit, estimated at € 60,000 by Mr Paquier!

Finally the table you received ignores green waste or the revaluation of index and over 10 years ... it may be important (34% between 2004 and 2014)!

**Say no** to the proposals to assert that we do not recognize the legitimacy of the President of IFE-AIDE to negotiate on behalf of all owners.

We should not feel bound by such negotiations.

**Say no to the proposals You should not feel afraid**  
– despite the intimidation of IFE officials and EURONAT-
